Important laboratory information: Discontinuation of the Septin-9 test

Dear colleague,

The manufacturer of the Septin-9 test has stopped producing the kits and we cannot currently offer an alternative method. Therefore, Septin-9 diagnostics in the MVZ laboratory Dr. Limbach & Colleagues Heidelberg is no longer available with immediate effect.

The license for the Septin-9 test was acquired from another company and is currently being further developed as the "Colorectal Cancer Blood Kit". We therefore hope to be able to offer the examination again soon and will inform you about this separately. We very much regret this development and ask for your understanding.

Best regards

Dr. med. Konrad Bode

Specialist in microbiology, virology and infection epidemiology

Graduate biochemist

Head of Department Molecular Diagnostics / Serology / Immunology / Genetics
